Keeping Us Safe at Home

Winning For Women believes that a strong homeland security fosters economic growth and stability.

Protecting Americans from terrorism within our borders

Nothing is more important than ensuring Americans are **safe and free here at home**. Federal and state government must work to protect our citizens from the threat of terrorism. We must also ensure law enforcement has the tools they need to protect Americans from scourges like the opioid epidemic and others. Winning For Women supports policies that will help ensure Americans can feel safe as they go about their daily lives.
